

SOPHIA OKOSODO OSEWE

SENIOR FRONTEND DEVELOPER (REACT)

+234-810-400-9853 | sophieokosodo@gmail.com | Port Harcourt, Nigeria (Open to Remote/Relocation) | [[Github Link](#)] | [[Portfolio Link](#)]

CAREER SUMMARY

Seasoned Frontend Developer with 5+ years of experience building highly responsive, performant, and scalable web applications in fast-moving, product-focused environments. Proficient in designing and developing user-facing features using modern JavaScript frameworks including Next.js (App Router), React.js, and TypeScript. Passionate about creating intuitive user experiences, building scalable UI libraries, optimizing applications for speed and technical feasibility, and collaborating cross-functionally to deliver exceptional frontend solutions. Proven ability to take ownership of projects from concept to launch, ensuring performance, reliability, and maintainability.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript, TypeScript, Core Java.
- **Frameworks & Libraries:** React.js, Next.js (App Router), Node.js, Express.js, Nest.js
- **Styling & UI:** CSS3, Tailwind CSS, Responsive Layouts, Reusable Component Libraries, Figma to Code
- **State Management & Testing:** Redux, React Hooks, Context API, Cypress, Playwright, Storybook.
- **Backend & API:** REST APIs, PostgreSQL, MySQL, MongoDB, Prisma ORM, TypeORM
- **Tools & Platform:** Git, GitHub, Agile/Scrum, Vercel, Render.
- **Other:** Performance Optimization, SEO, System Architecture, Automated Testing

WORK EXPERIENCE

Frontend Developer | Stringcode Limited

January 2021 – October 2023

- Accelerated feature development cycles by architecting and maintaining a comprehensive library of reusable React.js components, ensuring strict design consistency and scalability across multiple web applications.
- Delivered high-performance, responsive user interfaces by seamlessly translating complex UI/UX designs into efficient, maintainable JavaScript and React code.
- Improved overall application scalability and data flow through close cross-functional collaboration with backend engineers to integrate and optimize RESTful APIs.
- Significantly reduced post-release bug reports by championing front-end best practices, actively participating in rigorous code reviews, and contributing to the foundational automated testing scripts.

Frontend Developer | Haxell Solutions

November 2023 - Present

- Increased user engagement and session duration by architecting and delivering highly responsive, pixel-perfect interfaces from complex Figma mockups using React.js and Next.js.
- Enhanced overall SEO and modernized the tech stack by spearheading the migration of large-scale React TypeScript applications from Vite to Next.js, successfully implementing server-side rendering.
- Achieved a 15% reduction in page load times across target applications by identifying bottlenecks and implementing critical performance optimizations such as code splitting and caching.

- Supported long-term product growth by establishing scalable frontend architectures and building robust, reusable UI component libraries for cross-platform integration.
- Delivered seamless technical features consistently on schedule by collaborating cross-functionally with product managers, designers, and backend engineers to validate UI/UX feasibility and integrate RESTful APIs.
- Ensured high reliability and maintainability by actively contributing to automated testing initiatives and enforcing strict code quality standards through comprehensive peer reviews.

Frontend Developer Tutor | DITS Academy

February 2026 - Present

- Accelerated the technical proficiency of students by translating complex modern frontend concepts (React, TypeScript) into comprehensive, accessible learning materials.
- Elevated standard code quality across the academy by conducting rigorous code reviews, enforcing industry best practices in clean code, responsive design, and automated testing.
- Fostered a highly capable developer community by providing proactive asynchronous debugging support, successfully guiding students from foundational concepts to deploying complete full-stack portfolio applications.

PROJECTS

Hairz Salon Platform - Full-Stack Developer & Designer

Next.js, TypeScript, Tailwind, Vercel

- Translated complex UI/UX designs from Figma into a high-performance, complete salon management platform.
- Built highly responsive, role-based dashboards for users and administrators utilizing protected routing.
- Integrated appointment scheduling and e-commerce RESTful APIs into one seamless, scalable full-stack system.

Performance Management System | Ayaversity

December 2022- April 2023

- Served as Assistant Lead Backend Developer within a 25-person Agile team to build and deploy a full-stack system.
- Accelerated frontend delivery by stepping in to build key user interfaces and reusable components using React and TypeScript.

EDUCATION AND CERTIFICATION

BSc Computer Science University of Port Harcourt	2021-2025
Advanced Diploma in Software Engineering Aptech Computer Education	2022-2024
Scrum Fundamentals Certified Scrum Study	2023
Backend Developer Bootcamp Ayaversity	2023

HONORS & ACHIEVEMENTS

Best Performing Fellow (Backend Track) & Member of Best Pod – Aya x Coinbase Giving Fellowship
 Top Student Award - Aptech Computer Education (Recognized for outstanding capstone project)

LANGUAGES

English (Fluent)
